

AMENDMENTS TO THE SPECIFICATION

Please amend the paragraph beginning on page 10, line 19, as follows:

The present invention will now be described in detail with reference to the following examples and figures in which figure:

FIGURE 1 is a schematic presentation of the region between exon 7 and the 3' UTR of the vitamin D receptor gene.

Please also amend the specification by inserting the following Tables 1-4 on page 17 after the paragraph ending "implications of our results."
